Application No.: 10/697,667 2 Docket No.: 559852000102

PROPOSED AMENDMENTS

Claims 1-20 (canceled)

Claim 21 (currently amended): A method for using a plurality of inflatable life-sized humanoid figures for simulating a <u>stadium or auditorium crowd of real people seated in stadium or auditorium style seating and viewing a particular event in a foreground scene, the simulated stadium or auditorium crowd of real people for use in a background scene associated with a visual recording media production comprising:</u>

- a. providing said plurality of inflatable life-sized humanoid figures to said background scene,
- b. inflating said plurality of inflatable life-sized humanoid figures at said background scene,
- c. placing said inflated plurality of inflatable life-sized humanoid figures in the stadium or auditorium style seating in said background scene, and
- d. situating said inflated plurality of inflatable life-sized humanoid figures such that said inflated plurality of inflatable life-sized humanoid figures simulates said <u>stadium or auditorium crowd of real people</u> when visually recorded <u>in a manner that does not capture a sharp image of the inflatable humanoid figures as compared to the foreground scene.</u>

Claim 22 (previously presented): The method according to claim 21 further including at least one live actor or extra visible in said background scene.

Claim 23 (previously presented): The method according to claim 21 further including adding wardrobe to said plurality of inflatable life-sized humanoid figures.

Claim 24 (previously presented): The method according to claim 21 further including adding accoutrements to said plurality of inflatable life-sized humanoid figures.

Claim 25 (previously presented): The method according to claim 21 further including adding make-up to said plurality of inflatable life-sized humanoid figures.

Claim 26 (previously presented): The method according to claim 21 wherein said plurality of inflatable life-sized humanoid figures are in a standing position.

Claim 27 (previously presented): The method according to claim 21 wherein said plurality of inflatable life-sized humanoid figures are in a seated position.

Claim 28 (previously presented): The method according to claim 27 wherein a seat associated with said seated position includes a park bench, stadium style seating or auditorium style seating.

Claim 29 (previously presented): The method according to claim 21 wherein said plurality of inflatable life-sized humanoid figures is comprised of at least one upper torso figure.

Claim 30 (previously presented): The method according to claim 21 wherein said plurality of inflatable life-sized humanoid figures is comprised of at least one lower torso figure.

Claim 31 (previously presented): The method according to claim 21 wherein said plurality of inflatable life-sized humanoid figures is comprised of at least one complete body figure.

Claim 32 (previously presented): The method according to claim 21 further including means for anchoring said plurality of inflatable life-sized humanoid figures.

Claim 33 (previously presented): The method according to claim 21 further including means for removing excess humanoid figures from said plurality of inflatable life-sized humanoid figures.

Application No.: 10/697,667 4 Docket No.: 559852000102

Claim 34 (previously presented): The method according to claim 21 wherein said visual recording media production includes a visual recording of a corporate training session, a lecture, a video media production, television program, a motion picture, still photography, advertising, corporate convention or cinematographic production.

Claim 35 (previously presented): The method according to claim 21 wherein said plurality of life-sized humanoid figures are unconnected to each other.

Claim 36 (previously presented): The method according to claim 21 wherein at least a portion of said plurality of inflatable life-sized humanoid figures are contiguously connected.

Claims 37-40 (canceled)

Claim 41 (currently amended): A method for enabling a simulation of a <u>stadium or auditorium crowd of real people seated in stadium or auditorium style seating and viewing a particular event in a foreground scene, the <u>simulated stadium or auditorium crowd of real people for use in a background scene to be recorded in a visual recording media production, comprising:</u></u>

preparing a plurality of inflatable life-sized humanoid figures with features that represent a general shape of a portion of a real humanoid so that the humanoid figures can be placed in the stadium or auditorium style seating; and

providing the plurality of inflatable life-sized humanoid figures to the visual recording media production so that the plurality of inflatable life-sized humanoid figures can be inflated and placed in close proximity to each other in the background scenestadium or auditorium style seating and visually recorded as part of the background scene in a manner that does not capture a clearsharp image of the inflatable life-sized humanoid figures as compared to the foreground scene.

Claim 42 (previously presented): The method as recited in claim 41, wherein each inflatable life-sized humanoid figure simulates an upper portion of a real humanoid.

Claim 43 (previously presented): The method as recited in claim 41, wherein each inflatable life-sized humanoid figure simulates an entire real humanoid.

Claim 44 (currently amended): A method for simulating a <u>stadium or auditorium</u> crowd <u>of real people seated in stadium or auditorium style seating and viewing a particular event in a foreground scene, the simulated stadium or auditorium crowd of real people for use in a background scene to be recorded in a visual recording media production, comprising:</u>

inflating a plurality of inflatable life-sized humanoid figures having features that represent a general shape of a portion of a real humanoid so that the humanoid figures can be placed in the stadium or auditorium style seating; and

situating the inflated plurality of inflatable life-sized humanoid figures in the background scene in close proximity to each other <u>in the stadium or auditorium style seating</u> such that the inflated plurality of inflatable life-sized humanoid figures simulates a <u>stadium or auditorium</u> crowd <u>of real people</u> when the background scene is visually recorded in a manner that does not capture a <u>elearsharp</u> image of the inflated plurality of inflatable life-sized humanoid figures <u>as</u> compared to the foreground scene.

Claim 45 (previously presented): The method as recited in claim 44, wherein the features further represent general facial features of a real humanoid.

Claim 46 (previously presented): The method as recited in claim 44, wherein the features further represent general apparel features of a real humanoid.

Claim 47 (previously presented): The method as recited in claim 44, further comprising the step of applying facial or apparel features to the inflated plurality of inflatable life-sized humanoid figures.

Application No.: 10/697,667 6 Docket No.: 559852000102

Claim 48 (previously presented): The method as recited in claim 44, further comprising the step of performing the visual recording by focusing in front or in back of the plurality of inflatable life-sized humanoid figures so that the plurality of inflatable life-sized humanoid figures are out of focus.
